## AES-A-404 BOILER WATER OXYGEN SCAVENGER

#### **DESCRIPTION AND USE**

AES-A-404 is Carbohydrazide based oxygen scavenger specifically designed for high pressure boilers. AES-A-404 is an effective alternative to Hydrazine and other hazardous compounds. AES-A-404 has been developed to give outstanding from oxygen protection corrosion together with excellent feed water and boiler system passivation. It contributes dissolved solids and minimal ammonia to the boiler system. AES-A-404 can not be used where steam produced will contact food or food products.

### CHEMICAL FEEDING AND CONTROL

AES-A-404 must be fed continuously to the deaerating heater or feedwater storage tank and may be fed neat directly from the shipping container or mixed in a chemical feed tank. The product cannot be mixed in its concentrated form with most common chemicals used for treatment and hence it should be dosed separately. Stainless steel or plastic is recommended for the chemical feed system. Copper, copper alloys, and aluminum metallurgy in the chemical feed system must be avoided.

AES-A-404 is normally controlled by a CARBOHYDRAZIDE test on the boiler water. Control ranges can vary widely depending upon both makeup water characteristics and system operating conditions and will be specified by the technical representative servicing the facility.

### **TYPICAL PROPERTIES**

Appearance: Clear Liquid Odor: Characteristic SpecificGravity:1.0-1.05 Flash Point: None

pH: 7.0-10.0

Freeze Point: 0°C(32°F)

(All values approximate)

### SAFETY AND HANDLING

Do not take internally. Do not induce vomiting. If ingested, drink at least two glasses of water and get medical attention. Contact with eyes causes severe irritation or burns. If eyes are contacted, immediately flush with clear water for 15 minutes and get medical attention. For skin contact, wash with soap and water. For additional information, the Material Safety Data Sheet is available on request.

### **PACKAGING**

AES-A-404 is packaged in 200 and 25liter (nominal volume) plastic drums.

# **AES TREATMENT PROGRAMS & SERVICES**

**Cooling Water Treatment Programs** 

**Corrosion Inhibitors** 

Antiscalants & Antifoulants

Biocides

**Antifoams** 

**Boiler Water Treatment Programs** 

Oxygen Scavengers

Corrosion Inhibitors ( Pre-Boiler, Boiler and After

Boiler'

Deposit Inhibitors ( Sludge Conditioners)

**Antifoams** 

**Alkalinity Builders** 

**Potable Water Treatment Programs** 

**Corrosion Inhibitors** 

Deposit/ Scale Inhibitors

**Disinfectants** 

Fuel Treatment (Solid & Liquid)

**Deposit/ Corrosion Inhibitors** 

**Combustion Catalysts** 

Coagulants & Flocculants

Organic & Inorganic

**Odor Control Programs** 

**Masking Agents** 

Reactive Odor Control

**Enzymes** 

Hard Surface Cleaners

General Purpose Cleaners

Descalers

**Neutralizers** 

**Brewery & Bottling Plants** 

**Pasteurizers** 

**Bottle Washers** 

Conveyer Chain Lubricants

**Metal Treatment Chemicals** 

**Cutting Lubricants** 

Degreasers

Passivators

**Phosphatizing Chemicals** 

**Electroplating Chemicals** 

R.O. Water Treatment

Scale Inhibitors

Membrane Cleaning Chemicals

ANSI/ NSF Approved Antiscalants

**Thermal Desalination Treatment** 

Scale and Corrosion Inhibitors

Antifoams

**Descalers** 

Steam & Condensate Programs

**Corrosion Control** 

USDA/ FDA Approved Additives

Raw Water & Wastewater Programs

Coagulants Odor control

Flocculants Enzymes

Disinfectants Bacterial Spores

Antifoams Emulsion Breakers

**Process Treatment Programs** 

**Specialty Chemical Additives** 

**Commercial Laundry Chemicals** 

**Built Detergents** 

**Emulsifiers** 

Fabric Softeners
