### AES-A-419

## WATER SYSTEM ACID NEUTRALIZER/PASSIVATOR

### DESCRIPTION AND USE

AES-A-419 is a concentrated, specially formulated acid neutralizer/passivator for use in water systems after acid cleaning and flushing. When used for this purpose, it should be circulated in the cleaned system until the pH is stabilized above 10.0. The system should then be flushed and pretreated with recommended suitable inhibitor to prevent initial corrosion from occurring either in pockets of water remaining in the system after draining or, where the system is immediately refilled, to rapidly establish inhibited film on the metal surfaces.

### CHEMICAL FEEDING AND CONTROL

AES-A-419 can be dosed neat or diluted in the water systems. Where the system is to be drained subsequent to neutralizing and then put into temporary storage, it may be possible to mix the inhibitor to be used with the neutralizer so that an extra step can be avoided. The technical representative servicing the facility must be consulted prior to attempting this to insure both inhibitor compatibility and proper inhibitor levels are applied.

### TYPICAL PROPERTIES

Appearance: Clear colorless liquid  
Odor: Odorless  
Specific Gravity: 1.45 – 1.52  
pH: >9.00  
(All values approximate)

### SAFETY AND HANDLING

Do not take internally. If ingested, drink at least two glasses of water and get medical attention. DO NOT induce vomiting. Avoid breathing dust. Contact with eyes causes severe irritation. If eyes are contacted, immediately flush with clear water for 15 minutes and if irritation persists, get medical attention. For skin contact, wash with soap and water. For additional information, the Material Safety Data Sheet is available on request.

### PACKAGING

AES-A-419 is packaged in 200 and 25liter (nominal volume) plastic drums.

# AES TREATMENT PROGRAMS & SERVICES

## Cooling Water Treatment Programs

Corrosion Inhibitors  
Antiscalants & Antifoulants  
Biocides  
Antifoams

## Boiler Water Treatment Programs

Oxygen Scavengers  
Corrosion Inhibitors ( Pre-Boiler, Boiler and After  
Boiler)  
Deposit Inhibitors ( Sludge Conditioners)  
Antifoams  
Alkalinity Builders

## Potable Water Treatment Programs

Corrosion Inhibitors  
Deposit/ Scale Inhibitors  
Disinfectants

## Fuel Treatment (Solid & Liquid)

Deposit/ Corrosion Inhibitors  
Combustion Catalysts

## Coagulants & Flocculants

Organic & Inorganic

## Odor Control Programs

Masking Agents  
Reactive Odor Control  
Enzymes

## Hard Surface Cleaners

General Purpose Cleaners  
Descalers  
Neutralizers

## Brewery & Bottling Plants

Pasteurizers  
Bottle Washers  
Conveyer Chain Lubricants

## Metal Treatment Chemicals

Cutting Lubricants  
Degreasers  
Passivators  
Phosphatizing Chemicals  
Electroplating Chemicals

## R.O. Water Treatment

Scale Inhibitors  
Membrane Cleaning Chemicals  
ANSI/ NSF Approved Antiscalants

## Thermal Desalination Treatment

Scale and Corrosion Inhibitors  
Antifoams  
Descalers

## Steam & Condensate Programs

Corrosion Control  
USDA/ FDA Approved Additives

## Raw Water & Wastewater Programs

Coagulants      Odor control  
Flocculants      Enzymes  
Disinfectants    Bacterial Spores  
Antifoams      Emulsion Breakers

## Process Treatment Programs

Specialty Chemical Additives

## Commercial Laundry Chemicals

Built Detergents  
Emulsifiers  
Fabric Softeners  
Peroxide Bleach  
Chlorine Bleach  
Scoring Agents

## Services

Technical & Engineering Consultations  
Analytical Services  
Ion Exchange Resins Evaluation  
Reverse Osmosis Cleaning

## Equipment Supply

Water & Wastewater Treatment Plants  
Filters, Pumps  
Tanks  
Chemical Feed Systems  
PH Controllers  
Blow down Controllers  
Automatic Control Systems  
SCADA

Manufactured in the Kingdom of Saudi Arabia by :

The logo for AES, featuring the letters 'AES' in a bold, italicized, red font with a white outline.
